- After you have added an external account to your Money Mover in OLB, you'll need to verify that you own the external account. To do this, two micro deposits will come into your external account. Blue's OLB will ask for you to verify those deposits. Remember to put them in the order they came into your external account.

For example: Your external account gets a deposit of \$0.06 and *then* \$0.02. In order to verify the account, you will enter the deposits as **.06** and *then* **.02**.

(adding \$'s or 0's before the decimal will cause a failure so enter the deposits as **.XX**)
(authentication can take 3-5 days, and then transfers can take 2-3 days)

External Bank Accounts – Verify Bank
Please read the info below for next steps ...

Next Steps : Your external bank account is ready to be verified.

We have recently deposited 2 small amounts into this account. Please check on these deposit amounts, and then enter the amounts here to verify this external account.

Please note, this process must be completed within 10 days of initially setting up this external account. Otherwise you will have to start over by adding the external account again.
